Variable Fuel Surcharge

All concrete will be charged a Variable Fuel Surcharge. This surcharge is based on the average quarterly rack and will be adjusted the 1st day of every quarter, based on the previous quarter's average rack rate. The surcharge will be adjusted by \$1/m³ for every \$0.10/L change in the rack rate indicator, as outlined in the example table below.

Rack Rate	Fuel Surcharge
<\$0.67/L	\$0.00/m ³
\$0.67/L to <\$0.77/L	\$1.00/m ³
\$0.77/L to \$0.87/L	\$2.00/m ³
\$0.87/L to \$0.97/L	\$3.00/m ³
\$0.97/L to <\$1.07/L	\$4.00/m ³
\$1.07/L to <\$1.17/L	\$5.00/m ³
\$1.17/L to <\$1.27/L	\$6.00/m ³
\$1.27/L to <\$1.37/L	\$7.00/m ³

The quarterly average rack rate is calculated based on the Monthly Average Wholesale (Rack) Prices for diesel in Toronto, as posted on the Ministry of Natural Resources website.

Average Rack Rate		
Year	Quarter	(Cents/L)
2021	Q2	\$0.73/L
2021	Q3	\$0.77/L
2021	Q4	\$0.90/L
2022	Q1	\$1.13/L

Please refer back to our website for updates on the fuel surcharge adjustments. If you have any questions about the surcharge, please contact your Dufferin Concrete representative.
